3	A	 <p>APPLICATION</p> <p>A. Apply the fully extended brace making sure the back panel is centered and low on the back. Apply the brace tightly around the abdomen, the right side overlapping the left.</p> <p>NOTE: When applied properly, both the upper and lower edge of the brace should be snug. If there is any gap, reapply the brace and angle the ends to insure a snug fit at both the upper and lower edge. For certain patients, the ends must be steeply angled.</p> <p>B. Slip each thumb into the pull tabs. Extend the tabs out and away from the brace. When desired compression is achieved, place the hook side of the pull tabs down onto the loop material to secure.</p>	<p>COLOCACIÓN</p> <p>A. Aplique la faja totalmente extendido asegurándose de que el panel posterior quede centrado y bajo en la espalda. Ajuste bien la faja alrededor del abdomen, con el lado derecho superpuesto al izquierdo.</p> <p>NOTA: Cuando está colocada correctamente, tanto el borde superior como el inferior de la faja deben estar ceñidos. Si queda un espacio, aplique nuevamente a la faja y coloque los extremos en ángulo para asegurar un ajuste ceñido en los bordes superior e inferior. Para ciertos pacientes, el ángulo de los extremos debe ser pronunciado.</p> <p>B. Pase los pulgares por las pestañas de ajuste. Extienda las pestañas hacia afuera, en sentido opuesto de la faja. Una vez alcanzada la compresión deseada, asegure las pestañas, engancho el lado del gancho de las pestañas abajo sobre el material felpa de la faja.</p>	<p>ANLEGEN</p> <p>A. Die vollständig gedehnte Rückenstützbandage anlegen und darauf achten, dass das Rückenteil zentriert und im unteren Rückenbereich anliegt. Die Kreuzstützbandage fest um den Bauch legen, wobei die rechte Seite auf dem linken Ende liegen muss.</p> <p>HINWEIS: Bei richtig angelegter Kreuzstützbandage liegen die obere und untere Kante eng an. Falls eine Lücke vorhanden ist, die Kreuzstützbandage erneut anlegen und die Enden etwas schräg zusammenführen, damit die obere und untere Kante richtig anliegt. Bei einigen Patienten müssen die Enden eventuell stärker abgewinkelt werden.</p> <p>B. Die Daumen in die Zugleinen stecken. Die Leinen nach außen von der Bandage weg ziehen. Sobald die gewünschte Kompression erzielt ist, die Hakenseite der Zugleinen auf die Klettverschlusschlaufen legen, um die Bandage zu befestigen.</p>	<p>APPLICAZIONE</p> <p>A. Applicare il supporto completamente aperto assicurandosi che il pannello posteriore sia centrato sulla porzione inferiore della schiena. Applicare il supporto in modo che sia bene aderente attorno all'addome, con il suo lato destro sovrapposto a quello sinistro.</p> <p>NOTA: quando il supporto è applicato in modo corretto, sia il suo bordo superiore che quello inferiore dovrebbero essere aderenti. Se il supporto non risultasse aderente in determinate porzioni, riapplicarlo e angolare le estremità in modo da assicurare l'aderenza dei bordi sia superiore che inferiore. Per determinati pazienti, l'angolazione delle estremità deve essere molto pronunciata.</p> <p>B. Infilare ciascun pollice nelle linguette di estensione. Estendere all'infuori le linguette allontanandole dal supporto. Quando si ottiene la compressione desiderata, fissare le linguette di estensione appoggiandone il lato in materiale a uncini sul materiale ad asole.</p>	<p>PLACEMENT</p> <p>A. Appliquer la ceinture complètement déployée en veillant à ce que le panneau dorsal soit bien centré et positionné sur le bas du dos. Bien serrer la ceinture autour de l'abdomen, le côté droit recouvrant le gauche.</p> <p>REMARQUE: Lorsque la ceinture est correctement positionnée, ses deux bords, supérieur et inférieur, doivent être bien ajustés. S'il y a du mou, remettre la ceinture en place et incliner les bouts de telle sorte que les deux bords, supérieur et inférieur, soient bien ajustés. Pour certains patients, les bouts doivent être fortement inclinés.</p> <p>B. Introduire les pouces dans les tirants. Tirer sur les tirants en les éloignant de la ceinture. Une fois la compression souhaitée obtenue, fixer la partie adhésive des tirants sur la bande Velcro pour les maintenir en place.</p>	<p>应用</p> <p>A. 将腰带完全拉开, 确定背板位于腰部的中央。将腰带紧紧地戴在腹部周围, 腰带的右前面与左前面重叠。</p> <p>注意: 如果适当佩戴, 腰带的上下边均应紧紧地贴在身上。如果有任何空隙, 重新佩戴腰带, 并调整腰带两端的角度, 确定腰带的上下边均紧紧地贴在身上。对于某些患者, 腰带两端必须调整成较大的角度。</p> <p>B. 将双手大拇指分别插入拉环的孔。朝身体外的方向拉动。当达到理想的松紧度时, 将拉环粘附在腰带前方的钩环布上。</p>

4	A	 <p>ADJUSTMENT</p> <p>A. Adjust the vertical height with the posterior adjustment panel. The yoke should sit at level C7 on patient.</p> <p>B. Pull and tighten the shoulder straps until properly fit.</p> <p>C. Fasten and tighten the chest buckle to draw the shoulder straps away from the armpits which may be more desirable for some patients.</p> <p>NOTE: After initial fitting, have patient sit, then stand, and re-adjust fitting as necessary.</p>	<p>AJUSTE</p> <p>A. Ajuste la altura vertical con el panel de ajuste posterior. El yugo debe quedar a nivel de C7 en el paciente.</p> <p>B. Hale y ajuste las correas del hombro hasta que queden correctamente situadas.</p> <p>C. Pase y ajuste la hebilla del pecho para alejar las correas del hombro de las axilas, lo cual puede ser más conveniente para algunos pacientes.</p> <p>NOTA: Después del ajuste inicial, haga que el paciente se siente y luego se pare, y reajuste según sea necesario.</p>	<p>JUSTEREN</p> <p>A. Die Höhe kann mithilfe des hinteren Verstellteils justiert werden. Das Joch sollte auf Höhe des siebten Halswirbels des Patienten sitzen.</p> <p>B. Die Schulterriemen straff ziehen, bis sie richtig sitzen.</p> <p>C. Den Brustverschluss schließen und straff ziehen, um die Riemen von den Achselhöhlen weg zu ziehen, was von manchen Patienten bevorzugt wird.</p> <p>HINWEIS: Nach der anfänglichen Anpassung die Bandage ggf. erneut anpassen, wobei der Patient zunächst sitzen und dann stehen sollte.</p>	<p>REGOLAZIONE</p> <p>A. Regolare l'altezza verticale con il pannello di regolazione posteriore. La forcella di regolazione dovrebbe restare al livello C7 sul paziente.</p> <p>B. Tirare e stringere le spalline finché non calzano correttamente.</p> <p>C. Chiudere e stringere la fibbia pettorale in modo da allontanare le spalline dalle ascelle, accorgimento che potrebbe essere preferibile per alcuni pazienti.</p> <p>NOTA: dopo l'adattamento iniziale del supporto, far sedere e poi rialzare il paziente, e regolare di nuovo l'aderenza del supporto come necessario.</p>	<p>RÉGLAGE</p> <p>A. Régler la hauteur verticale avec le panneau de réglage postérieur. Le support doit se trouver au niveau C7 du patient.</p> <p>B. Tirer sur les bretelles et les serrer jusqu'à ce que le réglage convienne.</p> <p>C. Attacher et serrer la boucle thoracique pour maintenir les bretelles éloignées des aisselles, ce qui peut être plus désirable pour certains patients.</p> <p>REMARQUE: Après ce premier réglage, inviter le patient à s'asseoir, puis à se lever et régler de nouveau selon les besoins.</p>	<p>调整</p> <p>A. 腰带戴好后调整背板面板纵向高度。纽带应当位于患者的C7脊椎高度。</p> <p>B. 适当拉紧肩带。</p> <p>C. 对某些患者, 扣紧胸扣, 将肩带朝向腋窝前的方向拉动, 可能更合适。</p> <p>注意: 在第一次佩戴后, 让患者坐下然后再站起来, 如有必要可重新调整腰带。</p>
